Taunton Board of Health Policy: Inspection of Garbage Grinders and Total Bedrooms

Existing homes are to be inspected by a Taunton Board of Health Agent for the presence of a garbage grinder and the total number of bedrooms is to be counted prior to the approval of the DWCP Title V permit. All engineers, installers, or contractors are to arrange for access within the existing home prior to septic plan design submittal to the Taunton Board of Health. If a garbage grinder is present, contractor is required to remove garbage grinder prior to issuance of Certificate of Compliance (COC), or the design engineer MUST design plans for garbage grinder use.

If you have any questions about this memo please contact this office.
